HELP US MAKE THE JAM BETTER!

Participate and win awesome give-aways!

Take part in this research project that is designed to deeply understand the real experience of Jammers and Hosts during GSJam 2019. It will help us to identify all the things that rock already, all the details that might need to be improved and, of course, all the things that Jam HQ and the Jam community can learn from. The data will be used by Global HQ, participating local hosts and academics in order to create better Jam experiences all over the world in the future.

It is easy to participate. Just follow these simple steps and you may win some of our amazing give-aways!

How to participate
1. Download the ExperienceFellow App on AppStore or Google Play.
2. To join just open the app and type in the token or scan the QR-Code.
3. Follow the instructions to document as many Jam experiences as you want. What was good? What was bad?
4. Each individual step in the experience can be as detailed as you want - including text, photos and videos!
5. The app will ask you to upload your experiences. You can do it when you prefer.

Win give-aways
- 5 x ExperienceFellow Agency licences for 3 months!
- 5 x Smaply Business licences for 3 months!
